Re: Pill // OUTLOOK

How about Roy Hertz vs. Carl Djerassi  
(not exactly versus) to comment  
in their own words about pill, like  
Jukes/Wurster on DDT

Hertz will already have put down his  
testimony for the Nelson committee; Djerassi  
has some thought-provoking commentary on  
the further issues in the attached.

*Anyhow, do*

I think the rational conclusion is that  
oral-contraceptive research will have to be  
moved bodily to centers in the underdeveloped  
countries themselves, so that "products in-  
vented there" will diffuse back here, not  
be "pushed" at them by economic imperialists  
.....

This will require both commercial and govtl.  
support for such programs abroad.

P.S. If you were to publish this dialogue  
I could more comfortably criticize Djerassi's  
position while still declaring my close  
personal ties to him.
